

It is Continental Winchesters' policy to comply with all applicable environmental laws and regulations. Our vision is to be recognized as an environmental leader and to protect the environment.

We strive to prevent pollution and to reduce environmental impacts to the air, land and water.

We set environmental improvement goals, develop action plans and measure results.

We inform employees, the public and others about environmental performance and impacts.

We also monitor the effectiveness of the environmental management system and makes changes to improve as appropriate
