

**Tip 87: The Fortress Family**

**#DidYouKnow** The Fortress family is a Continental washdown lineup that will meet the needs of any cleaning application. Ranging from 300 PSI to 3,000 PSI in conjunction with our best in class Carbryn™ (as featured on Gorilla®) cover for superior abrasion resistance. With its patented Microban® cover, the Fortress family stands ready to protect your workspace or environment from harmful bacteria and contaminants.
