

# Awning & Recreation Press Polished Sheet

Continental press polished sheets are flame rated and usable for tents, awnings, sunrooms, restaurant patios & enclosures. The standard roll good shrinks 4-8%. With an average shrinkage rate of <1 %, and superior optical clarity without view distortion, Continental press polished sheet is clearly the better choice.

### Optically clear versatile awning and recreational enclosure solutions.

- › Formulated to meet higher flame standards than standard press polished materials.
- › Minimal shrinkage for a crisp premium fit and finish.
- › Unparalleled clarity in your flexible glass provides a beautifully undistorted view at any angle.
- › Long-lasting properties keep the view crystal clear for years to come.
- › Shrinkage is 4-8% on market roll goods. Continental is less than 1%.
